SOFTLINE 68 Wooden folding doors

Original and classic design with advanced technical solutions ensure maximal opening width.

Features

- 1. High-quality wooden profiles available in three depth options.
- 2. The possibility to produce large-size glazing that guarantees access to daylight in the room.
- Elegant design that is reflected in the beautiful form of rounded profiles with smooth shape and shiny surface.
- 4. Windows are available in three types of wood: pine, meranti 450+ and larch
- High quality achieved with application of top components and the using of selected wood for production.
- Focusing on ecology thanks to the application of natural wood and special water-based types of varnish
- Many possibilities to customize the interior design thanks to selection of masking and transparent paints
- 8. High level of energy efficiency ensured by the optimal quality of materials used for production, special sealing system and the proper glass packages.

Technical data
